Anthony Lake *Nursery*

Pineola, North Carolina

*Fall and Spring
Price List*

1930

TO THE TRADE

We have the following Nursery Grown-Transplanted and Collected Stock to offer to the trade. This pamphlet will be good until 1932 unless otherwise notified. Our first aim is a satisfied customer: next, many customers. We can truthfully say we are second to none on Native Rhododendrons and such items as we have listed. You may rest assured when you give us an order and same has been accepted it will have the best attention and quality. We have men in our organization who have had twenty years experience. We guarantee every plant shipped to be true to name and in good condition when shipped. We charge actual cost on crating and bur-lapping. No charge for packing in car lots. No extra charge on burlapping on items shown B. & B. We are not responsible for damage in shipping beyond our control, but will go the limit in assisting to collect any and all claims. We can truthfully say we have more Rhododendrons planted in our Nursery than any Nursery in the South. We give January and June dating to all after satisfactory references have been given. We have Western Union and Long Distance. We give you the Avery County Bank of Newland, North Carolina for reference. We will show our appreciation by the quality we ship you.

(No claims that material shipped is unsatisfactory will be entertained after ten days from receipt of shipment).

Collected Stock From Its Native Soil

Rhododendron Maximum—Blooms the latter part of June and the first of July has a beautiful white bloom tinged with pink. Its leaves are dark green about two and one-half inches wide and 5 to 10 inches long. This is most commonly used for massive planting and quick results.
